

## **INFO FOR 'MAC' USERS**

The *Sixty Second Tax Savings Organizer* software is **NOT Mac-compatible**.

**HOWEVER**, here are some options for Mac users:

1. Some of the new MACs can “dual boot” (i.e., run both the Apple OS and Windows)

2. You can use “Virtual PC” to convert PC-software to become Mac-compatible--  
<http://www.microsoft.com/mac/products/virtualpc/virtualpc.aspx?pid=virtualpc>

3. You can use Windows Emulators for MAC:

You have a number of options...here are a few web sites you can look at...
